and NSD File No. L-00-72.

Dear FCC:

Dear FCC,

I feel this is an outrageous call on your part.. The tracphone rates are high enough now without adding another 1.00 to them, they just went up in price not to long ago.. I am a single parent, with two children to raise, I bring my phone to work when I clean offices at night, for protection, being a single parent money is very tight here, and a 1.00 to you might seem oh its only a 1.00, but to single parents on a budget its another 1.00 added to bills that are hard to manage now..Like I said I bring my phone to work with me, because the area which I work is not a safe area at night to be in, but I need the money...Please reconsider your act in raising the price on the tracphone, it is deeply appreciated by me and others that use the phone for security and protection purposes.. Thank You, Debi DeMace

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,

Debi DeMace
